

Hlayisane Gloria Nonyana

Final Year IT STUDENT

Gauteng, Pretoria | (+27) 60 619 7669 | hlayisanenonyana@gmail.com | [LinkedIn Profile](#) | [GitHub profile](#)

Profile

I am a vibrant soul with a curious mind and a big love for tech, people, and creativity. I'm a final-year IT student, but beyond the code and coursework, I'm someone who thrives on storytelling, exploring new places, and making meaningful connections. I find joy in content creation, whether it's capturing moments, editing videos, or simply sharing life as it unfolds. Traveling refreshes my spirit, and I enjoy discovering new perspectives through the people I meet. I'm drawn to authenticity, laughter, and anything that feels real. **Technical Skills**

- **Programming Languages:** Python, Java, C#, C++, SQL, NET Framework
- **Web Development:** HTML, CSS, JavaScript
- **Software:** MS Word, MS Excel, MS Access, MS Teams, Oracle, Excel QM, MS Visual Studio, MS Visual Studio Code
- **Design Skills:** UI/UX Design
- **Methodologies:** Agile, Scrum
- **Business Skills:** Business Management, Problem Solving for Managers
- **Analytical Skills:** Data Structures and Algorithms, Data Analytics, Databases and Advanced Databases, Decision Support Systems, Descriptive Statistics
- **Mathematical Skills:** Basic Mathematical Techniques, Discrete Mathematics
- **Computer Science Fundamentals:** Structured Programming, User Interface Programming, Object Oriented Programming, Advanced User Interface Programming, Cloud Computing, System Analysis and Design, Information Security, Operating Systems, Computer Networks
- **Other:** Cisco Packet Tracer

Projects

- 🐾 **Zoo Navigation & Information Web App Technologies:** HTML, CSS
 - Designed a web-based zoo guide using HTML and CSS to help visitors explore the zoo layout.
 - Displayed a static illustrated map showing animal enclosures and key facilities like restrooms, restaurants, and the amphitheatre.
 - Provided descriptive information about each animal species, including habitat, diet, and fun facts.
 - Implemented clean, responsive design for accessibility on different devices.
 - Focused on improving user experience with intuitive navigation and visually engaging content.
- 🦸 **Marvel Character Showcase Web App Technologies:** HTML, CSS
 - Designed a multi-page static website featuring detailed profiles of Marvel superheroes.

- Each character had a uniquely styled page with visual elements, colour schemes, and layout specific to their persona.
- Highlighted character bios, powers, affiliations (e.g. Avengers).
- Focused on clean design, smooth navigation, and character-driven visual themes using HTML/CSS only.
